**Realistic Play.**  
"Can't you children play without continually ringing the doorbell?" asked mother, who had been trying in vain to get an afternoon nap.  
"No, mother," said Alice, "it's quite impossible. You see, Edith and I are playing house, and Freddie is the collector."—St. Louis Post Dispatch.

**Long Time Between Showers.**  
In 1912 rain fell in the nitrate territory of Chile for the first time in nearly half a century, and for the first time in man's memory the coast towns were free from dust.

**Enough Said.**  
"Thrifty, is she?"  
"Thrifty! I won't go into a long discourse. I merely tell you that she banked money in December."

Just as you are pleased at finding faults you are displeased at finding perfection.—Lavater

## OH, MOMMER! ISN'T IT SIMPLY AWFUL?

WAIT FOR A GENERAL DEMISE OF GOPHERS AND TARANTULAS ON THE DESERT

The people of Tonopah are now convinced of a new odor in town which is composed mostly of hydrogen-sulphide gas, coming from the water in the high pressure tanks, that is now being emptied as fast as the supply can run out. One line of hose was attached to a hydrant below the tank yesterday morning at 8 o'clock and placed over the hill. This morning two lines caused the water to recede to the five foot level. To satisfy taxpayers that the Bonanza was right in urging the health officer to purify the supply, one stream was allowed to flow from the hydrant at Bryan and Main street. The stench could be chopped with an axe.

## AUSTRALIAN WOOL REACHES MAXIMUM

IN SPITE OF DROUGHT SALES HAVE CREATED A NEW RECORD

(By Associated Press.)  
SYDNEY, Australia, August 15.—The American demand was probably the most conspicuous feature of the statistical Australian wool year of 1915-16, during which Antipodean wool trade and prices for certain grades of the product reached figures never before known in Australia.

At the port of Sydney, the largest market for raw wool in the world, although a drought had prevailed over large areas of the state of New South Wales, greatly reducing the flocks, there was an increase in sales of over 154,000 bales and an increase in realizations of over \$26,250,000.

During the year in the Sydney market alone the United States more than doubled the quantity of wool taken during the previous year. The total shipments jumped from 92,000 bales in 1914-15 to 273,600 bales (estimated) in 1915-16. Japan and Italy were also heavy buyers. Had not the imperial embargo operated against American purchases just at the close of the year it is probable that the figures for that country would have been still larger.

## PESKY RABBITS TO BE EXTERMINATED

NEW DISCOVERY WILL PROVE A GODSEND TO NEVADA FARMERS

The doom of the jackrabbit is at hand. His name is Dennis. No more will he raise the devil with the cabbage patches. He's done with.

How well do we all remember as how our dads told us to sprinkle salt on a rabbit's tail and then he could be easily caught, and how we wasted the salt.

But whoever dreamed that this ancient joke was so close to the scientific trail as developed and perfected by William Wills of Austin, who has demonstrated on rabbits at Sam Carter's ranch that salt, properly administered, will start a death dealing epidemic among the rabbits which is far in advance of the tail prescription peddled by our forefathers.

Wills took two dozen choice, selected, well matured rabbits from Carter's alfalfa field. He doctored the skins on their backs and inserted two tablespoonsful of salt along the spinal cord. The salt was then sewed up tight with sterilized silk thread. The rabbit is then turned loose. The case the Reville is reporting, the two dozen rabbits were released in a body, the scientists observing them from a lofty perch in a cottonwood tree. The salted rabbits emitted cries of a peculiar nature which attracted the attention of some five or six thousand of their mates, which were feeding on Carter's lower ranch. They came pell mell to the rescue, but were rapidly and fatally bitten by the salted ones.

Mr. Wills will have his remedy copyrighted, but will practice on any band of rabbits in Nevada at a price that will be perfectly satisfactory. Reese River Reveille.

**Chesley John Forster.**  
In "William Harrison Ainsworth and His Friends" the author, S. M. Ellis, tells a quaint story of Ainsworth and his friend John Forster. Ainsworth had discovered a fine set of Hogarth's engravings which was held at £5, a sum which, he said, "I could not just then spare or at least did not think I ought to spare. I took John Forster down to see the Hogarth, whereupon he actually said that he would and must have them himself and as he had not £5 of loose money at that moment I should lend that sum to him. I pointed out the absurdity of the position—that I wanted the engravings for myself and could not afford to lay out the money; how, then, could I lend it to him? It was of no use. He overruled me, had the £5 of me and bought the Hogarth's I was longing for."

**WILL START CROSSCUT**  
Station is being cut on the 1640 level of the Tonopah Bonanza, preparatory to crosscutting south. The formation now is trachyte containing 56 per cent silica and fifteen per cent potash, which is very favorable to more deposition.

## BELMONT HAS BOND ON COPPER QUEEN

OLD PRODUCER MAY PASS INTO HANDS OF PHILADELPHIA CROWD

Mark Walsh, president of the Wedge Copper company, with properties in the Santa Fe district in Mineral county, advises the Reno Gazette that the Tonopah Belmont crowd have an option on the Copper Queen mine, which adjoins the Wedge to the north. Their engineers have examined and sampled the property and within ten days they must start work or relinquish the option. In Laning the opinion prevails that the property will be taken over.

## NEVADA STATE FAIR OCCURS NEXT MONTH

PROMISES TO BE BIGGER AND BETTER THAN EVER BEFORE; GOOD RACES ASSURED

Preparations have been under way since the first of the year for the annual State Fair at Fallon and with a more elaborate and complete premium list than ever before arranged, it is expected that an unusually large display of exhibits in all classes will be in evidence during fair week—Monday, September 11 to 16 inclusive. Some of the finest stock on the coast will be exhibited from various parts of the state, including horses, cattle, hogs and sheep. Dairy stock in particular will be a marked feature of the fair this year.

GROW, BUT DON'T SWELL.

Save Exertion of Boasting and Use It in Doing Your Tasks.

It is well for you to have confidence in your ability, but when it reaches the stage of "swell headedness" your value to yourself or to any one else begins to dwindle.

"Some men grow with responsibility, others merely swell." The man who swells has ceased to grow. He has reached a place where he thinks he has all the knowledge he needs, and naturally all growth is retarded.

The best way—the most convincing way—to prove one's capability is by actions, not words.

The fellow who is continually bragging about what he can do is seldom of much account.

It is the man who does things in a quick, intelligent manner who wins.

Such a man will be found at the top because he deserves to be there. All concerns want him, because he not only accomplishes much as the result of his concentrated endeavor, but his influence is good on the other employees.

Save the exertion it takes to tell what you can do and use it in performing your tasks. In this way you will get so much consideration eventually that you will not be tempted to brag.

The other fellow will do it for you.—Louisville Herald

## GRAHAM IS IN THE PINK OF CONDITION

Bob Graham, the hard hitting boxer who meets clever Johnny McCarthy in the Airdome tonight in the main event of the Business Men's Athletic club's boxing show, arrived in Tonopah from Goldfield this morning and declared he was in the best of condition and expressed his confidence of being declared the winner over the fighting Irishman before the end of the tenth round. Every fight fan who has ever seen Graham is going to string his money with Fighting Bob. The fight between the two men should be a good one and worth while going many miles to see.

Paddy O'Hern, who meets Tommy McKevitt in an eight round bout as a special event to the Graham-McCarthy fight, informed Gus Rainier, matchmaker for the club, that he is in the pink of condition and ready for the sound of the gong. The fight will be a fast one and both lads are expected to show up some stuff that has never appeared on the surface.

The sale of tickets has been good and a large attendance is predicted. Nearly all the ringside seats are already gone and those desiring a good view of the fight had better purchase their tickets before the grid begins. Reports from Goldfield state that fifteen cars have been engaged to convey the delegation from the gold camp to Tonopah.

## SHAPE OF THE SHOE.

It is Radically Wrong, and All on Account of the Last.

In the American Magazine Dr. Arthur K. Reynolds, former health commissioner of Chicago, tells of the many troubles that can make life miserable and that come from feet that were neglected in childhood. Among other things he says:

"Children should go barefooted at all times while indoors and through the summer. They should never wear any foot covering at any time that in any way distorts the toes or any part of the foot or that interferes in any way with its normal growth and development. The same may be said of adults."

"Any reform in the shape of shoes must begin with the shoemaker's last. Shoemakers do not seem to be able to get away from form and beauty in shaping it. It is shaped largely by guess and is pointed and turned up at the toe. No normal foot is so shaped."

"The only rational last is made from a plaster cast of the foot while bearing weight, and the mold can be made only of some semi-solid material that hardens when cool or dry. There is little hope of getting a rationally shaped shoe until the wooden last is totally discarded. It is safe to assert that good looking and nondeforming shoes can be made without it."

## COMERSFORD HELD IN JAIL

The preliminary hearing of Charles Comersford will probably be on the day of the return of the district attorney. The coroner's warrant issued yesterday afternoon by Justice Dunseath was the first warrant of that nature ever issued from that office.

## AMUSEMENTS

## BUTLER THEATER

Another great favorite will be seen at the Butler this evening. It is Marguerite Clark, the fascinating little star who since her desertion of the stage has endowed the screen with a number of inimitable characterizations, most notable of which are "Still Waters," "The Prince and the Pauper," and who now adds another great screen achievement that surpasses all her previous triumphs in her delightful interpretation of Peggy in the famous romantic comedy, "Mice and Men." This role, in which such popular actresses as Annie Russell and Lady Gertrude Forbes-Robertson distinguished themselves in New York and London, respectively, develops the impulses and whimsicalities of romantic youth. "Mice and Men" is one of the most exquisite Paramount pictures ever produced. The preliminary reel will be Burton Holmes travel pictures, "Imperial Berlin."

Tomorrow, the great dramatic actor, House Peters, and Barbara Tennent, in "The Closed Road"; Napoleon and Sally, the educated chimp, and Miss Anabelle Hoppel and Miss Goldfield in vaudeville.

**Strategy.**  
"Nora has just dropped another plate," said Mrs. Twobble.  
"Well, my dear," replied Mr. Twobble, "suppose you go into the kitchen and drop a hint to the effect that she must not break any more china?"  
"Evidently you don't know how to manage Nora. If I lend her to believe that we rather enjoy having her break a plate occasionally I think she will be more careful."—Birmingham Age-Herald.

**Exempt.**  
"We've been playing school, mamma," said little Ethel.  
"Indeed?" replied her mother. "I hope you behaved nicely."  
"Oh, I didn't have to behave!" said Ethel. "I was the teacher."—St. Louis Post Dispatch.

**It Was Coming.**  
Patient—Doctor, what I need is something to stir me up—something to put me in fighting trim. Did you put anything like that in this prescription?  
Doctor—No. You will find that in the bill.—Judge.
